PROTECTING LEGACY

Over 185 years old,
five generation family-owned brand,
crafting the spaces where legacies live.

LEFT: PHILIP WOLF IV

Our legacy...

1834

Philip Wolf I, a successful German silversmith, discovered that his silver pieces sold better when presented in beautiful boxes. As he began selling more boxes than silver, he refocused his craft thus marking the beginning of WOLF.

1962

Over time, his highly automated factory employed over 300 people and was recognised as the largest manufacturer of jewellery boxes and display materials for all of Great Britain and much of Europe.

1895

Then came his son Philip Wolf II, who convinced his father to move the business to Malmö, Sweden. As time passed, his sons, Ernst and Philip III, proudly continued the tradition of box making.

1988

With the economy and business flourishing in England, the time was right for the Wolf family to assume the biggest challenge they had ever undertaken: tackling the USA and Canadian markets. It was up to Simon Philip V, with guidance from his father Philip IV, to persevere and continue to expand and diversify the company.

1930

Philip Wolf III continued to expand the Swedish factory into its third generation of box making. Progress was slow but steady and then, in 1962, his first son, Philip Wolf IV, immigrated to England to open a new factory.

TODAY

The Wolf family legacy proudly continues, focusing on innovative designs, technological advancements, the pursuit of the perfect design and the protection of your legacies.

Your legacy...

As a five-generation family company, we understand that extraordinary objects are representations of extraordinary moments in life.

Since 1834, the WOLF mark has been a symbol of decades of innovation and the pursuit of the perfect design.

We believe for a legacy to endure it must be nourished and upheld.

Every day in beautiful WOLF cases around the world, centuries-old treasures live side-by-side with exquisite new designs.

We are dedicated to honouring people's stories and the legacies they entrust to us.

Protect your legacy with WOLF

Sustainability

Over the last several years, we have deepened our commitment to sustainability across the company.

We source sustainable packaging and use materials like 100% recycled leather.

Because it matters to us, but also because our commitment to quality is intertwined with the need for sustainable processes and materials.

Protecting your legacy, protecting the planet.

Honouring Craft at Every Level

WOLF
Labour

Our workshops and the people who work in them are the bedrock of our business. We provide safe working conditions, liveable wages and work hard to ensure equal labour rights. Because the quality of life of our artisans directly affects the quality of our products and because we care about our impact on the environment, we also ensure that our factories meet emissions standards and practices.

Impact is in the Details

WOLF
Packaging

We only use recyclable, sustainable and eco-friendly packaging that is made of 70% post-consumer recycled waste. So you can feel good about unboxing your WOLF product as all packaging can be re-used or placed in a recycling bin.

Leather, Reimagined

WOLF
Recycles

Our CEO Simon Wolf has continued his family legacy in many ways, including a deep commitment to environmentalism and protection of animals. To protect your legacy, which is WOLF's core aim, we must do our part to protect the health of the planet. All of our watch winders are wrapped in 100% vegan leather; because the highest quality and luxury can also be sustainable.

New and Innovative Packaging

WOLF
Materials

At WOLF, we only use certified FSC 100% recycled paper, certified recycled corrugated cardboard and 100% recycled cotton and polyester materials. Our new accessories collection is 95% sustainable, with materials made from recycled PVC, apple pulp and plastic bottles.

Minimising Effects on Planet Earth

WOLF
Change

WOLF has a long history of caring about climate. Philip Wolf III wrote about 'climate change', in his book, 'Land Drainage and its Dangers as Experienced in Sweden', 58 years before the term had been coined. Philip wrote on subjects related to how we were already affecting the climate of the earth.

Family Legacy of Conservation

WOLF
Conservation

Simon Wolf's grandfather created the Swedish Salmon and Trout Association. The inauguration took place in August of 1948 when he opened Håstad Mill. As a lifelong fisherman who cared deeply about the water quality and the impact the fishing industry had on the planet, it was one of his greatest achievements that continues to inspire Simon Wolf's commitment to conservation.

SAFES

The 1834 Safe Collection is the next level of WOLF's commitment to protecting your most precious valuables. Our meticulously crafted safes are made to provide the ultimate in security while upholding WOLF's iconic design identity of melding beauty and functionality. In addition to our standard collection we offer a completely bespoke experience that allows you to choose leather, hardware colour, and interior configurations, ensuring that your taste is matched perfectly.

PATENTED TECHNOLOGY AND DESIGN

**ONLY OUR WATCH WINDERS
COUNT TURNS PER DAY**

WOLF, first to count turns per day, first
with the unique return to start feature, first
to engineer a safe lock-in cuff, now first
with their patent pending "Dynamic Cuff".

One cuff, three sizes...genius.

Why guess when you can be precise,

WOLF, always innovating.

PATENTED TECHNOLOGY

OUR SAFES FEATURE LUSTERLOC™

Jewellery begins to lose its luster with
air contact and our patented LusterLoc™

formula neutralises the process.

LusterLoc™ protects your jewellery

for up to 35 years.

BLUETOOTH USER-CONTROLLED APP

Using the password protected WOLF Bluetooth app could not be easier. Simply download from the App Store or Google Play.

Features include the option to register your safe warranty on the app, contact customer service and shop online.

The app allows you to name your safe and customise each winder, from Turns Per Day and direction to interior lighting and on/off timers.

ATLAS

CHURCHILL

ATLAS

Designed with beauty and function in mind the Atlas is forged in American steel, UL tested and certified for burglary & fire. HOW TO BUY A SAFE

Choosing a safe from WOLF allows you to decide on the optimum interior configuration to fit your personal collection requirements.

STEP 1: DESIGN

Once you have made your selections a personal drawing render will be developed and sent to you by your sales representative for approval and final agreement.

STEP 2: DEPOSIT PAYMENT

Once approved your order will be live and ready for manufacture. You will be issued an proforma invoice for 50% of the total agreed price. Once WOLF receives payment, your safe will begin production.

STEP 3: MANUFACTURE

On average a WOLF safe will require 12 weeks manufacture - once complete your safe will be shipped by sea to our nearest WOLF warehouse to you.

STEP 4: PLAN FOR INSTALLATION

While your safe is being made - WOLF will contact you to discuss your safe installation. You will be sent a questionnaire to complete so WOLF can understand your personal requirements and ensure a smooth process for installation.

STEP 5: FINAL PAYMENT

Once we have agreed your installation requirements and booked you an install date with one of our preferred global safe installation companies, your final invoice, including freight and installation costs, will be sent to you for final payment.

STEP 6: DELIVERY & INSTALLATION

Once final payment is received your safe will be delivered and installed as agreed. Once the safe is in place you can simply plug in and go. On the safe will be a sticker with full instructions and a QR Code to download the WOLF app to your phone.

PROTECT YOUR LEGACY

Printed by a UK CarbonNeutral® company. Manufacturing mill and printer registered to the Environmental Management System ISO14001 & Forest Stewardship Council® (FSC®) chain-of-custody certified.
